

ECONOMIC IMPACT OF
Harris County Airport

Georgia Airports Mean Business

Georgia's airport system of 104 publicly-owned, public-use airports – nine commercial service airports and 95 general aviation airports – are essential to the state's transportation and economic infrastructure, supporting its diversified industries including technology, manufacturing, distribution, tourism, and agriculture. These businesses utilize Georgia's airports to transport employees, customers, vendors and goods, which spur economic development. Airport businesses support on-site and local jobs by providing aviation-related goods and services to aircraft and passengers. Additionally, on-airport capital improvements promote economic activity in the

community through increased construction jobs and the purchase of goods and services. Georgia's business and leisure visitors, who regularly arrive on commercial airlines and general aviation aircraft, stimulate local economies by spending money for lodging, food, other transportation, shopping, recreation, and entertainment.

Georgia's airports, by means of on and off-site businesses, visitors, and aviation-related organizations, contribute significantly to the state's economy, supporting 471,175 jobs, \$17.7 billion in payroll, and \$62.6 billion in statewide economic impact.

Statewide Economic Impact Study

The Georgia Department of Transportation commissioned this Federal Aviation Administration (FAA)-funded study to quantify the economic contribution of the state's airport system using an FAA-approved methodology of survey data and modeling estimates. The economic impacts are categorized by on-airport, visitor, and multiplier impacts to measure the total jobs, payroll, and total economic output of each of the 104 airports in this study.

The economic benefits calculated for each of the airports was based on comprehensive survey data provided by airport managers, airport tenants, non-aviation businesses who utilize the airport, and airport

visitors. The multiplier effect of these direct impacts was calculated using Georgia-specific regional multipliers. For example, if an airport employee purchases groceries, those dollars may support a grocer's payroll, the grocer may spend money on child care, and so on, until those payroll dollars originating from airport activity leave the community and state. The spending and re-spending generates additional economic activity in the region.

The total economic impact of \$62.6 billion is the sum of all direct airport and visitor impacts combining with the multiplier effects and presented in terms of jobs, payroll, and total economic output.

Statewide Economic Impact

	Hartsfield-Jackson Atlanta International	Other Commercial Service Airports	General Aviation Airports	Statewide Totals
Jobs	434,434	26,451	10,290	471,175
Payroll	\$16.3 billion	\$1.1 billion	\$354.4 million	\$17.8 billion
Economic Output	\$58.2 billion	\$3.2 billion	\$1.2 billion	\$62.6 billion

Note: Hartsfield-Jackson Atlanta International Airport data is from 2009 Economic Impact Study. All other data is based on CY2010.

Benefits of Harris County Airport

Harris County Airport is located in Pine Mountain, 30 miles north of Columbus along U.S. Route 27, sits at the foothills of the Appalachian Mountain Range and serves as the gateway to abounding recreational opportunities, such as nearby Callaway Gardens, Pine Mountain Club Chalets Resort, and Franklin D. Roosevelt State Park.

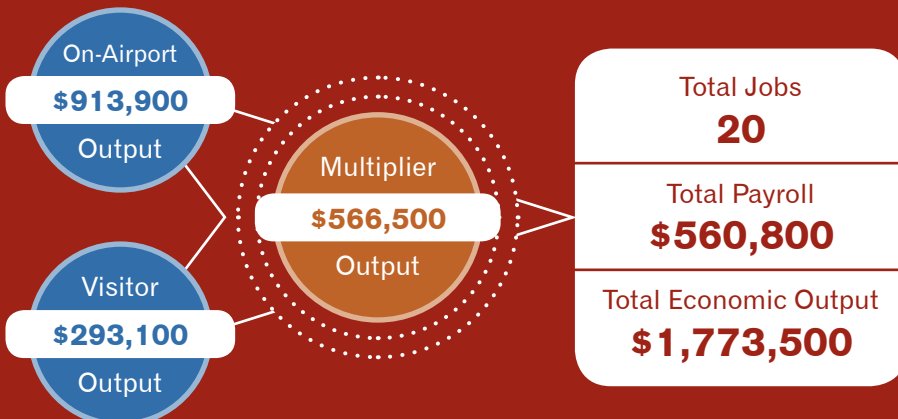

Harris County Airport is located two miles southwest of Pine Mountain and has a single runway, Runway 09/27, which is 5,002 feet long. Ben's Flight Service provides aircraft maintenance and fuel. The airport serves a variety of aviation activity in and around the area including law enforcement patrols and flight training.

The airport caters to visitors traveling to the area for golfing or to relax at the spa facilities at Callaway Gardens or to hunt and fish in the surrounding mountains. The nearby Wild Animal Safari Park also attracts tourists to the area. Harris County has earned "Entrepreneur Friendly" designation

from the Georgia Department of Economic Development and is a Certified Work Ready Community by the Georgia State Workforce Investment Board. Harris County Airport compliments the community's progressive approach to economic development and provides a gateway for many visitors and businesses entering the region.

Airports connect Georgia's citizens and businesses to the rest of the state, our nation, and the global economy. Harris County Airport plays a vital role in supporting the region with 20 jobs with an annual payroll of \$560,800, and \$1,773,500 in economic output for the local and regional economies.

Economic Impact of Harris County Airport

Jobs measures the number of full-time equivalent jobs where a part-time employee counts as half a full-time employee.

Payroll measures the total annual wages and benefits paid to all workers whose salaries are directly attributable to airport activity.

Economic Output measures the value of goods and services related to the airport.

Georgia Airports

- Georgia is served by 104 publicly-owned, public-use airports:
 - Nine commercial service airports, including Hartsfield-Jackson Atlanta International, and
 - 95 general aviation airports.
- Airports in Georgia (excluding Hartsfield-Jackson Atlanta International) support:
 - 1.2 million annual boarded passengers.
 - 720,000 commercial service visitors.
 - 1.1 million general aviation visitors.
 - More than 500 on-airport businesses.
- Hartsfield-Jackson Atlanta International Airport:
 - Supports more than 46 million annual boarded passengers; that's nearly 12,700 daily boarded passengers.
 - Provides nonstop service to 156 U.S. cities and more than 80 international destinations in 52 countries.
 - Supports nearly 60 passenger and cargo airlines.
 - Is the busiest passenger and operations airport in the world.
