Atlanta, GA 30308

Subject: Certification of Georgia Carbon Reduction Strategy

Dear Commissioner McMurry:

The Federal Highway Administration (FHWA) has completed our review of the Georgia Carbon Reduction Strategy required under 23 USC 175. Based on the review, FHWA certifies that the Georgia Carbon Reduction Strategy meets the statutory requirements.¹

Certification of this strategy does not indicate FHWA approval or authorization of any specific project. Please continue to coordinate with your FHWA division office on the implementation of programs and projects identified within your Carbon Reduction Strategy.

As a reminder, updates to Carbon Reduction Strategies are required no less frequently than every four years.² The FHWA will follow up with States on specific opportunities for improvement in future year strategies and will continue to provide technical assistance and guidance as States continue implementation.

Sincerely,

Emily Biondi
