

I-85 @ SR 42/North Druid Hills Road Project: 90-day Closure and Detour of the North Druid Hills Road Bridge Over North Fork Peachtree Creek

STATUS UPDATE: JULY 19, 2024

Current Status:

On April 26, 2024, Georgia Department of Transportation (Georgia DOT) contractors closed the State Route (SR) 42/North Druid Hills Road bridge over North Fork Peachtree Creek for 90 days to safely expedite bridge demolition and reconstruction work. During this time, there is a signed, 5-mile, detour route in place. Traffic is moving around the work zone without major disruptions.

The new bridge is tracking to be complete within the 90-day period and is anticipated to open next week. When open, three vehicle lanes in each direction will be available, as well as pedestrian access on the bridge's southside. Construction activities will still be ongoing on the outside sections of the bridge as crews work to open the bridge to final configuration, which will include four lanes in each direction and an additional sidewalk on the northside.
